

Bio:

With more than 24 years of experience in the interior design, retail, and food service industries, Ms. Tamburro brings a unique perspective to each project having worked as an interior designer, store manager, showroom assistant, shop clerk, waitress, hostess, and educator to better serve her hospitality and residential interior design clients.

Concentrating in airport dining, retail store, and hotel design her background in both interior design and the development of singular concepts gives Ms. Tamburro exceptional insight into understanding what makes a restaurant, store, or hotel travel friendly, aesthetically pleasing, yet cost effective to build. As a LEED Accredited Professional, her extensive knowledge of and passion for sustainable design and business practices are a valuable asset to her clients.

Ms. Tamburro's residential clients appreciate her ability to enhance their personal taste, creating spaces that are more polished than what they may have chosen by themselves but still feel like home, are within their means, and adhere to their schedule.
